## *Message...*

### **Sri Pratap Jena**

Hon'ble Minister  
Health & Family Welfare  
Govt. of Odisha

Greetings to all the readers of the Newsletter of Orissa State AIDS Control Society (OSACS). It gives me immense pleasure to share my views in this News letter going to be released on World TB Day. It shows the coordination between two organizations to combat HIV-TB co-infection in the state.

TB is the leading infectious killer in India. There were an estimated 28 lakh new cases of TB in 2016, with over 4 lakh people succumbing to the disease, including those with TB and HIV. In “Test and Treat” Policy for HIV, all men, women, adolescents and children who have been diagnosed as a HIV positive will be able to lead an improved quality of life and will save them from many opportunistic infections, especially TB. TB/HIV co-infection rate in Odisha is 1.1% against cross referral from RNTCP and HIV testing centre.

OSACS has done a remarkable job with a vision of a state where every person living with HIV has access to quality care and is treated with dignity. Effective prevention, care and support for HIV/AIDS is possible in an environment where human rights are respected and where those infected or affected by HIV/AIDS live a life without stigma and discrimination.

Together, let's end it. Let's unite to end stigma and discrimination, end isolation, and end HIV transmission. Today and every day, let's stand with people living with HIV – and meet this global challenge together.”

I wish all the success of the Newsletter.

  
(Pratap Jena)

## *Message...*

### **Dr. Promod Meherda, IAS**

Commissioner-cum-Secretary  
Health & Family Welfare Deptt.  
Govt. of Odisha

I am glad to know that Odisha State AIDS Control Society (OSACS) is releasing its second edition of News letter 2017-18 on World TB day which clearly points an effective coordination between TB and HIV wing to bring down the TB-HIV co-infection burden.

OSACS is moving ahead on its march with an aim of elimination of HIV transmission from mother to child by 2020 and End AIDS by 2030 as Sustainable Development Goal. Multi-pronged holistic approach which operates simultaneously on micro and macro level is the need of the hour. There is a need to monitor the impact of HIV/AIDS. Scaling up treatment alone will not end AIDS. We need more energy and action put into HIV prevention – stronger partnership and community engagement to ensure that everyone can protect themselves from HIV. At this crossroads, we should stand shoulder to shoulder to accomplish the objective of speedier reduction of HIV infection.

In the past few years together we have changed the HIV landscape and I am sure in the coming years we will work more closely with related wings & the community to meet the goal of ending the HIV epidemic as a public health threat by 2030.

I am certain this publication will go a long way in bringing some important activities of OSACS. I wish the publication may grand success.

A handwritten signature in blue ink, appearing to be 'Pramod Meherda', is located above the printed name.

(Dr. Pramod Meherda)

## *Foreword...*

**Dr. Sanjay Kumar Pattanayak**

Project Director, OSACS

It gives me immense pleasure to share my views in the Odisha State AIDS Control Society (OSACS) News letter. As we all know, newsletter is a reflection of an organization's mission as well as goals. OSACS News letter is a half yearly publication which reflects achievements, hardships, challenges and dedication undertaken by the organization. OSACS has done remarkable jobs in different activities with a vision where every person living with HIV has access to quality care and is treated with dignity. Effective prevention, care and support for HIV/AIDS is possible in an environment where human rights are respected and where those infected or affected by HIV/AIDS live a life without stigma and discrimination.

This edition of newsletter features articles from the current edition includes mega event on World AIDS Day organized by OSACS. There are various other activities which are covered in this newsletter. This year we have tried a lot through different new activities to fight against AIDS to newer heights. With these thoughts, I hope that the Newsletter will highly encourage and keep the readers updated.

A handwritten signature in blue ink, which appears to read 'Sanjay Kumar'.

(Dr. Sanjay Kumar Pattanayak)

## We can and We must

A disease can be treated effectively only when the cause is known. But though the causation of HIV-AIDS is known still then the treatment is difficult unless it is started early and effectively.

In our state OSACS is doing a lot of works in bringing out the hidden cases and providing treatment and care maintaining confidentiality and dignity of the person (PLHIVA) over the years.

The number of newly detected cases is increasing every year not due to increase in incidences but due to more numbers of testing and more coverage of suspected cases. Actually nearly 100% coverage of all ANC cases this year has gone a long way to stop all PTCT (parent to child transmission). Same should be for general cases also.

There is a good network of OSACS in the fields with sincere and hard working staffs who are the real soldiers fighting against this disease to be curbed to zero. For furthering the work and reaching to more and more people at large they are to be provided with more flexible funds, more materials of counselling, testing, essential drugs and enhanced support to carryout ART.

IEC awareness campaign through periodicals, newspapers, traditional folk media are functional & in addition to this modern technologies like twitter

facebook & whatsapp in large should be approached and adopted.

Counselling, testing along with case detection are three main approaches which need to be strengthened. But most of the part is left to the NGOs by way of TI. Their case detection is lagging behind the Government health facility based centres. It is time that we should review the cost effectiveness of all our TI projects which are evaluated by external agencies and not directly by our Government officials. The work and achievement should not be framed ones but should be from real work and facts.

Work has no substitute; sustained effort is the key to success. This society states what it is meant for only in two words "AIDS CONTROL". It has generated a number of jobs for the persons with a bent of mind to work for the betterment of the individuals with social mental and physical traumas of HIV infection which is probably not their fault but of ours not able to make them aware of it in time.

We can, if will take it as a challenge to make infection zero, make testing counselling 100%, make ART 100% and reach every nook and corner of the state without discrimination and stigma. And we must.

Dr. Ramachandra Rout  
Addl. Project Director

**World AIDS Day** is observed on 1st December consistently. Like each year, World AIDS Day 2017 was commended with another topic "Right to Health"- My Health, My Right- including a scope of intuitive exercises, campaign by distributing posters and

occasions that are embraced by all division of society. To mark this occasion different awareness activities were undertaken by Odisha State AIDS Control Society (OSACS) in all over the state .

## MASS RALLY

A Mass Rally was organized at 7.30 AM involving approximately 1000 nos. of participants from Schools, Colleges, RRC Units, Nursing Institutes, TI NGOs, NSS Volunteers, Scout & Guide and also from Paramilitary Forces. The rally was inaugurated by Sri. Pratap Jena, Hon'ble Minister, Health & Family

Welfare and other dignitaries. The participants took oath to spread awareness on HIV / AIDS and act as peer educators in their communities. Thereafter, the rally started its march from Ekamra Haat through Ram Mandir square, Master Canteen conclude at Jayadev Bhawan, the state level venue.

## Hon'ble Chief Minister's Message

Hon'ble Chief Minister's message was published in 16 vernacular and in 6 English daily newspapers. Special message of Hon'ble Chief Minister also send to the Zilla Parishad Members, Sarpanch and PRI members. The message contains not to stigmatise the issues related to HIV/AIDS and seek their cooperation for HIV/AIDS related awareness campaigns.

## Mass Media Activities for/On the Day

To create awareness and to be familiar with the day on 29th and 30th November, pre-campaign was made in 10 vernacular dailies. Live-phone-in was telecasted through Doordarshan to meet out the misconception of the general public and spots broadcasted through All India Radio. Folk Media campaign for one month was started in 7 high vulnerable districts. Spots displayed through LED board at Unit-II market building and Ram Mandir square as pre and post campaign.

## State Level Function at Jayadev Bhawan

The state level function was held at Jayadev Bhawan between 11.00AM to 2.00PM. It was graced by Sri. Pratap Jena, Hon'ble Minister, Health & Family Welfare as Chief Guest, Dr. Prasanna Ku. Pattasahani, M.P., Bhubaneswar Lok Sabha, Sri Bijay Ku. Mohanty, Hon'ble MLA Madhya and Sri Priyadarshi Mishra, Hon'ble MLA Uttar, Shri Ananta Narayan Jena, Mayor as Guests of Honour. Dr. Pramod Ku. Meherda, Commissioner-cum-Secretary, Govt. of Odisha,

H&FW Deptt, presided over the meeting in presence of Dr. Ajit Kumar Mishra, Project Director, OSACS, Dr. Bijay Kumar Swain, Joint Director (IEC), OSACS .

During the function, half yearly newsletter of OSACS was inaugurated and Prize distributed to winners of different competitions. Cultural programme was conducted at the end of the function.

## Inauguration of IEC Vans

Seven mobile exhibition vans with educational materials accompanied with traditional folk troupes on HIV/AIDS were inaugurated before the state level function. The vans covered 7 nos. of high vulnerable districts for one month and sensitized 363348 persons.

## Felicitation for outstanding work

3. District Administration, Balangir

### Field Staff

1. Mr. Tarun Kumar Biswal, Lab. Technician, ARTC, RGH, Rourkela
2. Ms. Manjula Pradhan, Counsellor, ICTC, Bhanjanagar, Ganjam
3. Mr. Narayan Ojha, lab. Technician, ICTC, Paradeep

### Outreach Worker

1. Mr. Ratnakar Pradhan, KNP+, Bhubaneswar
2. Mr. Sanatan Behera, NAP+, Angul
3. Ms. Lima Kiro, SEWAK, Sundargarh

## Candle Light Rally by HRGs

OSACS organized a Candle Lighting Programme in collaboration with Indian Red Cross Society (IRCS), TI starting from IRCS to Master Canteen chowk in the evening. Dr. Ajit Kumar Mishra, PD, OSACS, DR. Gyanabrata Mohanty, Honorary Secretary, IRCS, Dr. Sanjay Kumar Patnaik, Additional Project Director, Dr. Bijay Kumar Swain, Joint Director (IEC), Dr. Sushant

Kumar Swain, Joint Director (TI) and other officials of OSACS were present in the programme and delivered valuable speeches to grace the occasion. Participants from State Network of Positive People, TI NGOs & other section of the society also participated to make the event successful. The rally followed by skylighting at master canteen chowk. With the community, general mass also participated in the programme voluntarily.

## Different Activities before WORLD AIDS DAY

Poster making and one act play competition among the college students and NGO partners was organized at IRCS, Bhubaneswar. The winners were felicitated in the state level function.

### Awareness Programme by Govt. Medical Colleges

Awareness Programme on Prevention on HIV/AIDS was organized by All India Institute of Medical Science, Bhubaneswar, SCB Medical College, Cuttack, VSS Medical College, Burla & MKCG Medical College, Ganjam for observance of World AIDS Day with support of OSACS.

### Observation By Other Organisations

**Jindal Steel & Power Ltd (JSPL)** organized several awareness programmes at Barbil in Keonjhar District, Tensa in Sundargarh district and joined the district level awareness rally at Angul.

**Vedanta Limited, Jharsuguda** organized awareness session involving more than 2000 people including its employees, truck drivers, Students from nearby school and general public.

### Observation in Colleges

World AIDS Day was observed in Govt. Women's College, Jeypore with Sub-Divisional Hospital Jeypore, LEPRASociety, TI, District Legal Services Authority (DLSA) and Youth Red Cross. Other colleges were also observed the day through awareness rally, general meeting, blood donation camps, cultural programmes and other activities. Competitions related to HIV/AIDS among students were conducted and awards distributed.

### District Level Programme

The day was observed in all districts including 7 DAPCU districts. The day observation started from inauguration of Mass Rally involving RRCs and NGOs, Blood Donation Camps were organized. General Meeting involving district authorities CDMO/ADMO(PH) was conducted. A sensitization session for medical & paramedical staff was organized while debate, painting competition among RRCs students in district level were also conducted. In some places to mark the occasion different activities were conducted before commencement of the event.

# National Youth Day

National Youth Day celebrated annually on January 12 on the birthday of Swami Vivekananda. Odisha State AIDS Control Society (OSACS) organized the State Level programme on the 12th January 2017 on "Siddhi Se Sankalp" at Indian Medical Association (IMA) house, Unit-IV. The day celebrated in the light

of Swami Vivekananda's messages for Youth. The celebration also focused on involving more youths for prevention & control of HIV/AIDS in the state.

The celebration of the day started from morning with different competitions i.e., Alpana & Rangoli, competition, where students from different colleges of Khurda district were participated with much enthusiasm inspite of chilled winter morning. After that quiz Programme was conducted and distributed prizes. As per the schedule, talk on "Role of youths in HIV/AIDS prevention & Control" with

Swami Vivekananda costume was also conducted and the winners were felicitated in the meeting. To

entertain the students and celebrate the day a cultural programme was conducted.

The state level meeting was started with welcome address by Dr. Ajit Kumar Mishra, Project Director, OSACS. He highlighted the significance of the day and urged the cadets to wake up the eternal energy and give efforts to make the state & country developed. He also mentioned that HIV & AIDS was a concern for the whole country, and that the event was an opportunity to learn and share the issues of HIV & AIDS. The Honorable guests were present in the meeting were Dr. Kailash Chandra Das, Dr. Sanjay Kumar Patnaik, Additional Project Director, OSACS, Sr. Advocate Sri Dhaneswar Mohanty.

## Screening for Syphilis during Pregnancy

NACO is committed to eliminate Parent-to-child transmission of Syphilis and new HIV infections among children by 2020. To achieve the target and adhere to Ministry of Health and Family Welfare, Govt. of India's policy for universal screening / testing of pregnant women for HIV & Syphilis OSACS has conducted a State Level Training Of Trainers (TOT) on "Screening for Syphilis during Pregnancy".

Dr. S. K Swain, DD (STI & SS / M & E), OSACS had took a session about Indian Perspective of Congenital Syphilis. Dr. Mangobinda Srichandan, Sr.

Skin & VD Specialist, Capital Hospital, Bhubaneswar presented Dermatologists' concern, Maternal Syphilis & Congenital Syphilis of Infants and Children. Dr. Muktikesh Dash, Associate Professor, Microbiology, SCB MCH, Cuttack presented Laboratory Diagnosis of Syphilis at Point of Care.

Mr. Bikash Kumar Mohanty (Lab Facilitator), Lab Tech., ICTC-II, Capital Hospital, BBSR had given hands on training of Syphilis Screening at Point of Care.

## Red Ribbon Club initiatives

The role of the Red Ribbon Club (RRC) members is to educate youth with correct information and heighten their level of awareness about HIV/AIDS & other related issues. In the state there are 662 nos. RRCs opened in the colleges of the state and doing awareness programmes by observing world AIDS Day and celebrating National Youth Day and other programmes. A one day district level HIV/AIDS

awareness programme was organized by the Red Ribbon Club Unit of Govt. Autonomous College, Rourkela on 28.02.2018 supported by Orissa State AIDS Control Society. In this programme more than 100 numbers of college students and YRC counselors from different colleges of Sundergarh district were present. Essay, Slogan, Debate & Quiz competitions related to HIV/AIDS was conducted. Guests distributed the mementoes, certificates to the winners of the competitions. Shri Prabhat Mishra, student of +3 of the college stood first in all Competitions.

## IEC stall in different Fairs

IEC stalls installed at Kalinga Book Fair and Rajdhani book fair in 2017. Different activities were undertaken, IEC materials and condoms were distributed as well as counseling provided to HRGs & general population. To encourage and ensure maximum participation, on-the-spot quiz competitions and prize distribution was made.

## State Level GIPA convention- 2017

OSACS has always given focus to Greater Involvement of People Living with HIV/AIDS (GIPA) as one of its major thrust area. To realize the rights and responsibilities of the PLHIV, including protection of their human rights and to ensure participation and better integration of personal views of PLHIV in the policy, decision-making process and sensitizing the departmental authorities as a result it has brought tremendous change in the lives of thousands of PLHIV of Odisha. Such intervention of OSACS has already been recognized and appreciated by NACO and other international humanitarian agencies working in the state.

On 24th November, 2017 a state level GIPA convention organized by OSACS, considering the present contexts related to HIV- sensitive Social Protection, an approach for achieving Sustainable Development Goals (SDG) to end HIV/AIDS by 2030, FAST-TRACK TARGETS 90:90:90 and Fast Track Commitments to end AIDS by 2030. The main focus was on Fast Track Commitment No: 6 (Ensure that 75% of people living with, at risk of and affected by HIV benefit from HIV-sensitive social protection by 2020)& Fast Track Commitment Commitment No: 9 (Empower people living with, at risk of and affected by HIV to know their rights and to access justice and legal services to prevent and challenge violations of human rights). More than 100 nos. of PLHIV member participated in this convention and resource person from different Department of Govt. of Odisha i.e. Health & Family Welfare, Odisha State Employment Mission, Food Supplies & consumer Welfare Dept. and District Legal Services Authorities were invited to make it success.

## Community level Screening in PPTCT Programme

For elimination of the perinatal infection, the HIV screening for Pregnant women (PW) from 1st trimester of pregnancy is essential, as appropriate ART can only be administered if the PW is found to be positive as early as possible. Evidence suggests that if the mother is on ART prior to 6 months of delivery then the transmission risk to the baby is less than 2%. To attain this goal orientation cum review programme i.e. 2 batches with ADMO (FW), DMRCH, ICTC-II Counsellors & 1 batch with the ADMO (PH) organised during October to Dec-2017. In the said orientation microplan was made to implement the community level HIV screening at VHND platform. Out of 30 districts during the above said period Bolangir, Kurda, Bargarh & Dhenkanal has piloted the activities in one subcenter each and subsequently scaled up to other VHND session sites of the concerned blocks. In each VHND sites on an average of 15 ANC mother was screened for HIV. Both Hemoglobin and HIV screening test was done in one finger prick.

## Targeted Intervention Projects

Community based screening for HIV is launched by OSACS in all Targeted Intervention and projects and

Link Worker Schemes. With support of NIRANTAR, the hand-holding training is imparted to Programme Managers, Counsellors, Outreach Workers, District Resource Person and Supervisors of LWS by district level Resource persons. OSACS has provided a cold box to every TI and LWS project for carrying the HIV

test kits from Nodal ICTCs to testing sites in the community.

With initiative of TI division, OSACS intervention for HIV prevention among prison inmates launched on World AIDS Day, 2017 in Jharpada Jail. Till February this prison intervention Program is initiated in Jharapada jail, Bhubaneswar, Circle Jail, Baripada, Central Jail, Choudwar, Circle Jail, Rourkela, Circle Jail, Angul.

## Award for Care Support and Treatment

Care Support and Treatment team of OSACS is felicitated for its over all activities by NACO in the

National CST review meeting held at Ahmedabad from 17-19 Feb.'2018. Joint Director CST Dr. Sanjay Kumar Pattanayak received the momentum and certificate from the dignitaries present in the meeting Better performance in CST indicators like- 100 % Reporting in time, Staff Management, ICTC-ART Registration, ART initiation, 12 months referral
